GENERAL STEPS

Kindly go through the courses list under Courses Tab thoroughly before starting the registration. This is advisable as a timer is set to complete the registration process.

1. Set Credits:

Click on **SET CREDIT** Button to enter credit choices

In Step 1, specify the total number of credits that they wish to enroll for

In Step 2, specify the number of courses across which these credits will be taken

In Step 3, specify the credit combination for each of these courses to achieve the total credits

The image is a screenshot of the 'SET CREDIT CHOICE' form. At the top, there's a progress bar with five steps: 1. Set Credits, 2. Select Courses, 3. Set Course Priority, 4. Pay Fees, and 5. Accept Courses. Step 1 is currently active. Below the progress bar, the form is divided into three sections:
1. **STEP 1 - ENTER CREDITS**: A text input field with a value of '6' is highlighted with a red box. The text above the field says 'Enter number of Credits you wish to enroll for (max. 10, min. 2)'. Below it, a note states 'Your fee would be calculated based on credits you enter.'
2. **STEP 2 - SELECT NO. OF COURSES**: A text input field with a value of '2' is highlighted with a red box. The text above the field says 'Select number of Courses you wish to enroll (max. 3, min. 1)'.
3. **STEP 3 - ENTER CREDIT COMBINATION**: Two text input fields are shown. The first, 'Credit choice for Course 1', has a value of '3' highlighted with a red box. The second, 'Credit choice for Course 2', has a value of '3'. Below these fields, a note says 'Please go through the [student handbook](#) and [student undertaking](#) before proceeding to payment.' At the bottom of the form, there are two buttons: a yellow 'SAVE MY CREDITS' button and a grey 'NEXT SELECT COURSES' button.

Click on **“SAVE MY CREDITS”** to save the specified credit choices and then click on **“SELECT COURSES”**.

Note: After the above screen, a timer of 15 minutes starts and a student will have to complete the registration process within this timeline.

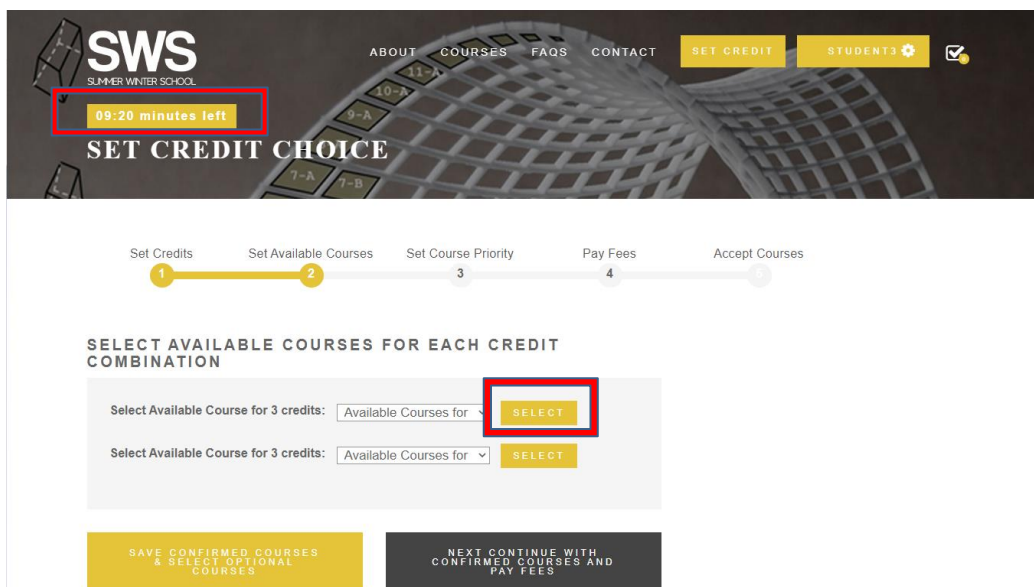

2. Select Courses:

Based on the credit combination specified, and the status of seat availability, a list of courses with confirmed seats available will be shown. Student must select ONE course from this list for each of the course-credit combinations specified in the previous step.

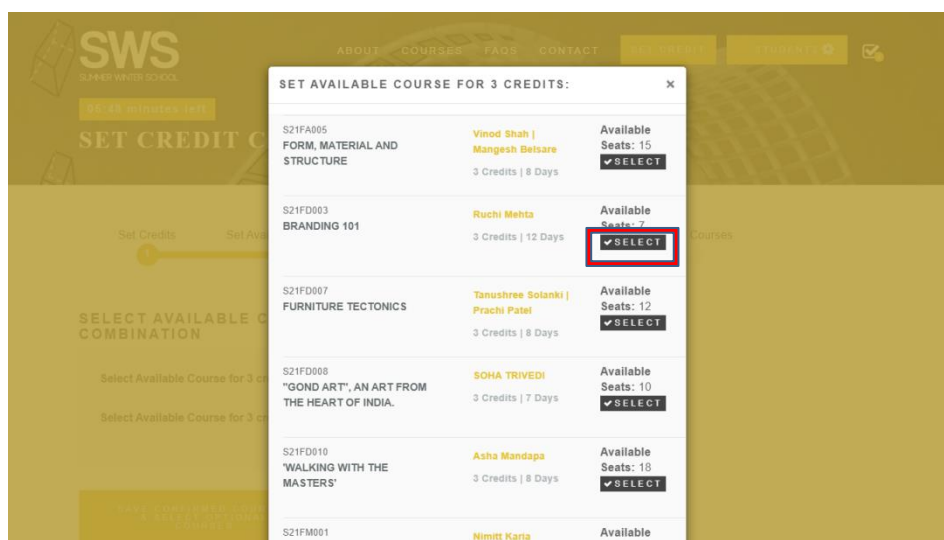

The registration process will be a timed one. A **15 minutes timer** starts ticking from the moment a course is selected after setting the course-credit combination. Students are required to complete their course selections to payment process within these 15 minutes. While the timer is running, the courses they selected continue to be available to them, and the seats are locked. However, if the timer runs out before the student completes the registration process, the locked seats are released back to the pool and are available to others.

In cases where students get signed out or face any disruptions, the timer continues to keep their choices under lock, and they will be able to complete their process after signing in again before the timer runs out. However, the time lost in the interim will remain lost.

In cases where students reset the Credit Selection or change the Credit selection before the payment of fee, all their choices and the timer will be reset. Students have to then go through the process of selection of courses afresh.

Click on the **SELECT** button. A POP UP window will list the courses with seats currently available as shown below. Make your course selection and select it.
