Summer Winter School

The CEPT SUMMER WINTER SCHOOL (SWS) programs emerge from an acknowledgement of the value of learning from embodied experience. Planned as structured study courses, they hinge on the idea that the challenge of being in a new environment and actual on-site observations contribute to a great degree to the tacit learning processes.

The Summer and Winter Schools (SWS) at CEPT University are opportunities for students to gain valuable learning experience that go far beyond the structured classrooms. Along with providing students and faculty an innovative and experimental learning teaching landscape, the SWS concept provides students an opportunity to learn by being immersed in diverse habitats. The habitats will be studied from a wide range of perspectives from infrastructure planning, to construction detail to spatial constructs.

Wide range of participation of students and professionals from varied backgrounds make the SWS courses more dynamic and rich multi-cultural learning environments.

The courses for the Summer School will be conducted from 2nd week of May spanning till 4th week of June with duration of about 7 weeks. The courses for Winter School will be conducted during first three weeks of December. The exact dates depend on the academic calendar of CEPT University and regular announcements will be posted on the website along with the required specific details

Objectives

These programmes differ from the regular semester ones in terms of structure, approach and content. The key words that capture the spirit of SWS are experimental, variety and innovation. They explore emerging areas, provide space to test new ideas and methods, facilitate experience, help understand critical sites and situations, and create opportunities to learn by making. The courses in SWS are intense and are for a short and period of two to four weeks.

Orientation

The hallmark of the SWS is their enriching variety. They achieve it by offering courses that cover a wide range of topics and issues and creating a diverse learning group by inviting students from different schools to apply for the courses. The intellectual environment is also enriched by bringing potential professionals, academicians, artists and other experts from across the country and abroad to teach. To attract more resource people from outside and make it convenient for them, the SWS encourages CEPT faculty to host courses with them. In such cases, the university teaching staffs often take a good part of the responsibility to administer the courses.

Courses

Faculties' help students understand the nature and orientation of the courses and enable them to make a well-informed choice. To achieve this, they explicitly state the objectives, mode of teaching or working, and learning outcomes of the courses up front. In the previous SWS, students have favoured sessions such as workshops, activities that are installation oriented and require travel, and opportunities that provide acquisition of specific skills. In coming years, this pallet would be expanded by offering more courses, that intellectually stimulates, involve multi-sensorial learning, focuses on specialized process and skill impartation.

The SWS are unique opportunities to expand horizon of learning, interact with a large group of enthusiastic and talented students, practitioners and academicians, and showcase CEPT academic initiatives. Open to students from varied backgrounds, the courses become dynamic and rich multi-cultural learning environments. In years to come, the programmes would explore new avenues and grow in strength.

Following rules and regulations shall govern registration, conduct of courses, and evaluation of students, examinations and maintenance of discipline in all programs under Faculty of Architecture, Faculty of Design, Faculty of Management, Faculty of Planning, and Faculty of Technology. These rules shall be for students registering for all Winter/ Summer School courses at the CEPT University.

These rules are effective from September 10, 2013. The clause related to Professionals in the Eligibility is added from 25th Feb-2015.

1. Eligibility:

2. A student registering for Summer /Winter School courses can take maximum of 10 credits and minimum of 2 credits. The fees will be charged per credit basis for Summer / Winter School courses. Fees do not include any expenses the student may incur for the materials, field visits, travel, and related expenses.

Under this approach the portal will allocate the courses to students on first come first serve basis. The status of seat availability will be visible at the time of the selection of courses and a student can confirm it.
4. A 15 minutes timer is set and a student will have to complete the registration process within this timeline.
5. A student can register for SWS only if they select atleast one course where a seat is available to them at the time of registration. If no seat is available in the courses of their choice, they may need to come back another time to check if a seat is available.
6. In addition to confirming an available seat in a course, students can put their names in a waitlist for courses which are more of their liking, but do not currently have available seats. This allows student to mark their priority and put their names in a waiting list for those courses. A student can set priority of upto 3 courses for each of the course-credit combinations they have selected.
7. When seats become available due to cancellation, the waitlisted candidates will receive an email. However the accept button will be activated on the dashboard of the candidate who has an

earlier time stamp to the waitlist. The accept button will be active for a given duration which would cover ample daytime for the candidate to exercise the option.

For example – Candidate A cancelled the course at 12 am, so the email will go to B, C, D candidates who were in the waitlist for the course.

The accept button will be activated in the dashboard of Candidate B as that was the earliest time stamp.

The button will be active till 6 pm the next day to exercise the choice. Failing which it will get activated in Candidate C's dashboard as that was the earliest time stamp.

8. If the courses are undersubscribed, it will be the joint decision of Summer/Winter School Office, Dean of the concerned Faculty and Academic Director of CEPT University to continue with the course or to cancel the same. If a course opted by a student is closed due to insufficient registration, the student will have an option to choose one from the list of the courses having vacant seats or to cancel their registration.

9. The option to change the confirmed courses is provided after the payment is made and registration is complete. It can be changed only twice. The set credits entered at the time of registration will remain the same till the end.

10. The drop button on the dashboard will be visible when the course allocation result is published.

11. Professionals will be allocated courses based on the screening of the documents, by the concerned faculty of the course opted.

12. Once the course is allocated, it is student's responsibility to meet the concerned faculty before the commencement of the course.
